 Expected Graduation _____

No grade below a C minus will be accepted for any course in the major. All CSI labs (with the exception of Forensic Science in Investigation Lab, CJE 3762L) are offered only face to face during the summer semester and take place in one week. Dates are published by the start of spring so that students can plan accordingly. Labs are held on Monday through Friday from 9am-5pm on the Panama City campus. This worksheet reflects courses you are currently taking and considers that all courses will be passed. If a course is dropped or not passed, or signed up for without consulting an advisor, it may affect your expected graduation date. All information was compiled using an A/R report and unofficial transcript printed on this day.
